Subject —Municipal affairs of Dodballapur Town

With reference to your letter No L 1070/M1 108-28-1 dated 3rd August 1928 and the subsequent correspondence thereon regarding the above, I have the honor to state that the President has made a detailed report on each point raised by the correspondent in the extract of Navajeevana under advertance While enclosing a copy of the President's report for the information of Government, I wish to state that the financial condition of the Municipality is not salutory to any progress in the direction of improving the dilapidated town, so much deplored in the body of the President's report and would suggest that if sympathetic consideration is accorded by Government by extending special treatment for improving the town, some time will take before Dodballapur can develop to modern conditions

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Bangalore District

Letter No To No 24/ dated 2nd August 1929 from the President, Dodballapur Municipality Dodballapur to the Deputy Commissioner, Bangalore District, Bangalore

---

In inviting kind reference to your memo No C2-5715/28-29 dated 25th June 1929, forwarding for report copy of the article that appeared in the Navajeevana dated 20th July 1928 re Municipal affairs, Dodballapur, I beg to state as follows -

This town, which some decades back must have been in a flourishing condition, has it is ascertained, since great famine of 1875, gone into decay due also to changes in economic conditions of the residents and to periodical out-breaks of plague and to out-break of influenza, which appeared in a virulent form some years back This change has taken place not abruptly but has gone on gradually In some quarters of this town houses have disappeared and a few are getting dilapidated The descendants of the original owners of some of these houses have left the place for good, while others due to poverty are unable to xxxxxx raise new buildings on the vacant sites The owners of these sites neither dispose them off for sale, ~~not~~ nor build houses thereon This state of affairs in a large measure, has contributed to the existence of a large number of vacant sites in the heart of the town and in its out-skirts The only remedy open to the Municipality is to acquire these sites and dispose them off to others willing to buy them and construct houses thereon

As the present financial condition of the Municipality is not satisfactory, it is found not possible to have recourse to this step just at present

The condition of roads and the drainage system are not satisfactory and much remains to be done in this useful direction ~~As~~ At the time I assumed charge of the Municipality I found that repairs ~~or~~ to roads and improvement of drainage had not been attended to for some years previously A statement of works executed after I took charge of the Municipality is appended It will be seen therefore that works costing Rs 2162-9-0 have been executed A programme of works to be executed have been got prepared and kept ready with a view to take them up in the order of urgency to the extent municipal finances permit To augment municipal resources and take up improvement works on a larger scale tax-

are being revised

The Municipal garden referred to in the article in the news paper is about ½ acre in extent with a pond and a small temple It is dotted with one Bagani 3 or 4 ~~dasavala~~ guava, 3 or 4 padari, 1 seege bush and 3 or 4 dasavala trees and adjoining a land once used as a cremation ground with a lot of rank vegetation The water of the pond is quite unfit for drinking purpose as manurial and other impurities percolate into it from the adjoining agricultural lands and is useful only for washing purposes This so called municipal garden is situated at a distance of about 1½ miles from the centre of the town No one would be willing to resort to this place - Situated at such a distance with uncongenial surroundings for recreation It is ascertained that as the pond contained a perennial supply of water Mr Gopala Iyengar , Amildar had appointed a watchman out of Municipal — funds to grow flowers for puja purposes As the employment of a watchman was considered as an unnecessary drain on the slender resources of the municipality, especially as no useful purpose was being served by employing a watchman for the place, his services were dispensed with and a watchman for watching octroi goods from being smuggled, was appointed in his stead

Pit system for night soil is the charecteristic feature of this place as in many others It is not possible to effect redical improvement in this direction unless conservancy lanes are opened and system of daily removal of night soil is enforced by means of legislation and ~~xxxxx~~ by the employment of a sufficient number of scavengers for the purpose The reference to the existence of a manure pit in one of the choultries made in the article of the newspaper, it is presumed, is to one in Rumale Rudrappa's choultry I have inspected the same with the manager of the choultry and have strictly informed him to have it closed as early as possible and make arrangements for daily removal of night soil which he has agreed to do very early Notice has also been served on him and necessa y action is being taken in the matter

Almost ~~all~~

Almost all the non-official members on the council are gentlemen full of common sense, intelligent, educated and discreet and fully concious of their powers and duties, as members are capable of -- discussing subjects logically and of asserting their individually It cannot be understood what the writer of the article means by - saying "that an abstractionist lawyer member is turning down all the resolutions in the council and they are therefore helpless" It cannot be imagined how it is possible for one member to suppress the opinions of the majority It is an aspersion cast on the members as regards their competency to sit on the council

Copy of the article is herewith resubmitted as directed.
